Amazing service from Lockwize, after losing my keys out shopping with the family I called Alan and he was able to get to us very quickly. He managed to unlock my door with no damage or mess. He was professional and polite and i couldn't be happier with the service. Thank you.

Brilliant service. A bedroom had locked and I called Lockwize who came straight away and took 2 minutes to fix the problem. Alan (the guy who fixed it) was really friendly. I would definitely recommend Lockwize and wouldn't hesitate to use them again. Thanks.

Alan was very professional. Very good price indeed! My mum was made up she now feels safe in her own home again. Thanks again to Lockwize.

Quick, professional and extremely well priced. Opened French doors within 1/2 hour which had been seized up for years, which the builders on site couldn't budge after weeks of trying (on and off). He couldn't have been more helpful and would recommend to anyone.

Today I locked myself out of my house and had left the keys, mobile phone and the dogs inside! Called Lock Wize from my neighbours and they were round within 30 mins and had me back inside in no time without any damage to the house at all!

The price charged was very, very reasonable and I would highly recommend for anyone who finds themselves in the same position :)

I have used Alan's locksmith service in two occasions. Both time he's was prompt and professional even solved another problem on the way out with a sliding door even though I never asked him too. Would highly recommend his service. Thanks Alan.

Brilliant service that was friendly and quick. I phoned up first thing on Saturday morning and Alan was out instantly, fixed within 10 minutes with a very friendly service and great value for money. Thanks! :D

I am not a local and my van lock barrel was vandalised (near break in). Very quick and efficient (arrived 30mins after calling), got the job done cleanly with no stress, very helpful, and was cheaper than I had found anywhere else. Thank you!

I am a Locksmith myself but anytime I get any work in Liverpool I pass it to Lockwize Locksmiths as I know they actually pick the lock and not drill. If my customers are happy then I am happy so I highly recommend this Locksmith.

It really was a relief to find Alan after contacting a few "locksmiths" from gumtree, none of whom instilled me with any confidence that they knew what they were doing (one guy asked me what a thumbturn lock was?!). Also, I think you really have to trust the company you hire with something as sensitive as security (you hear horror stories about dodgy locksmiths keeping a spare key!). With the other people I called I didn't feel like I could trust them, and I even found one guy linking off to reviews that weren't even his! Even the first consultation call with Alan put me at ease plus he has so many positive reviews from other people. He knows what he's doing, he's trained and specialised in what he does, and he offers a professional, friendly service. There were no hidden costs, like a callout fee, and he gave me quotes in advance, breaking it down into materials and labour charge. He even gave me the option to provide my own lock, though I ended up going with the locks he provided. He also does cheaper mid-week rates so I was able to save a bit of money that way. He goes above and beyond and was also giving me tips about a few other handy issues in my house, which I really appreciated. I would definitely recommend him to anyone and use his services again.

Needed a locksmith in Liverpool and Lockwize Locksmiths Liverpool was recommended to me.

We had a new door fitted this year on a house that we rent out in Liverpool but it was fitted with a standard low security lock.

Alan the locksmith came out and agreed that we needed a higher security anti snap lock so we went ahead with his quote.

He was very reasonable with the price and the lock looks really good.

If you need a locksmith in Liverpool I would highly recommend Lockwize Locksmiths Liverpool as I felt that he was very honest and gave me good advice on the best security.

Prompt service, friendly staff, good prices and good work. No complaints whatsoever, would use Lockwize again.

Update: used Lockwize for the second time more recently and once again the work was great at a good price.

Great service !! I was locked out and Alan was with me within 30 minutes gaining access to my house.

Wouldn't hesitate to use him again and will recommend to others.

WHAT A LIFE SAVER! I stupidity lost my car keys in the gym and wasn't sure what to do.

I was ringing around as you do got many quotes for my ford and the prices were extortionate!

I called alan from lockwize and what a star he has been the price was very reasonable and he arrived on time and i wass off home within 30 minutes off the call!
Could not thank alan enough!
Thanks again definitely would recommend!
